

No Fish Out of Water Here...

Samsung, a world-class leader in technology and manufacturer of Staron® solid surfacing, is pleased to announce that Pacific American Lumber, Inc. is now the exclusive distributor of Staron® solid surface products throughout Hawaii. Staron® is a 100 percent acrylic solid surface material for kitchens, baths and commercial projects.

Staron® combines natural beauty with design sensibility by offering more than 50 colors and nine stylish sinks and bowls.

Staron® Solid Surface materials are bacteria and stain resistant and can also be used for office, food service and healthcare applications.
